High Performance Intelligence

7-Seats SUV

ACC Adaptive Cruise Control
Equipped with Bosch Medium-range Radar MMR evo14, CS95 can detect forward vehicle. ACC system move-stop function with speed range from 0 to 150 Km/h guarantees CS95 to activate from stationary and also accelerate or decelerate intelligently. Keeping safe distance, stopping or moving following forward vehicle and adapting varies road conditions makes CS95 more easy to drive.

Lane Warning Departure System
Equipped with Bosch MPC2Plus camera, CS95 is able to identify the lane line and to warn drivers when deviating from the lane, preventing accidents from fatigue or distracting driving. The distance lights and passing lights can be switched intelligently when driving at night. CS95 can also automatically detect speed limit and avoid speeding when driving on express way.

AEB - Automatic Emergency Brake
The three intelligent functions, car distance warning, forward collision warning, and collision mitigation, equipped in CS95 can avoid or ease the collision by alarm and auxiliary braking.
